Dear Mr Beardmore and Mr Gush,

On behalf of everyone at Weldmar Hospicecare, thank you so much for your incredibly generous grant of £5,000 towards the purchase of suction machines for our Inpatient Unit. We are delighted to confirm receipt of the grant and are deeply grateful for your support.

Your donation will help us purchase specialist equipment that enhances patient comfort and dignity, enabling our clinical teams to provide the highest standard of palliative care to those who need it most. Support such as yours makes a tangible difference to the lives of patients and their families at an enormously challenging time.

We are particularly touched that this grant has been made in memory of Jen Clay and Annette Hart. Their stories beautifully reflect the compassion, care and support that are at the heart of hospice care, and we are honoured that Weldmar was able to support them and their loved ones. Please pass on our sincere thanks to Bill Monahan and to Annette's family for sharing such moving tributes.

We would also like to congratulate the teams who took part in the Monster the Loch Challenge. The determination, commitment and good humour shown by both the Jackass and Chinstraps crews in completing such a demanding event are truly inspiring. Their efforts, alongside the support of Penguins Against Cancer's members and supporters, have directly contributed to improving care for local patients and families.

Please extend our heartfelt thanks to everyone involved in raising these funds. We are immensely grateful that you have chosen to support Weldmar Hospicecare and help us continue providing specialist end-of-life care across Dorset.

Thank you once again for your kindness, generosity and belief in our work. We look forward to sharing updates on the impact of your support.

With our warmest thanks and best wishes.
