09 April 2024

Dear Penguins Against Cancer

Firstly, I would like to pass on the thanks of all of us here at St. Luke's, to the Trustees and to Rob Lancashire and Pete Davidson for their proposal to continue support for our organisation, in memory of Emma Lancashire. I can also formally confirm receipt of the £5,000 included with the letter dated 28<sup>th</sup> February 2024. This generous donation will help us to care for over 300 patients and their families at any given time within our local community.

By 2040, 40% more people will require end of life care in the UK. That's why we are working to up-skill staff in care homes and educate people within schools, places of worship and companies to ensure as a community we can all help others at end of life, or those who are bereaved.

Whatever the weather, our urgent care team will be out and about on the roads. Wind, rain, hail, you can expect them all during a British winter, but our nurses make our patients their priority. Last year, our teams spent 6475 hours on the roads, making house visits across Plymouth, the South Hams, Dartmoor and South East Cornwall. They know that our patients need them, so they make sure they will be there.

Your support, kindness and generosity are truly appreciated and never taken for granted.

Best Wishes

Melissa Landricombe

Supporter Care Lead
