4th March 2024

Dear Trustees,

I am writing to express our heartfelt thanks to the Trustees of Penguins Against Cancer for the recent generous donation of £5000 towards the work of Breast Cancer Now, specifically our research. I can confirm that we have safely received the donation so please note this letter as our formal receipt of the donation.

As you may know, 55,000 women and 370 men in the UK are diagnosed with breast cancer every year, and an estimated 600,000 people are living beyond a breast cancer diagnosis. Living with breast cancer is never easy. The treatment regimes, the physical side effects, the mental impact. It can all take its toll and it can feel difficult to cope. But amongst all the uncertainty, Breast Cancer Now is still that trusted and knowledgeable friend that people can turn to. We are only able to do this with the support of organisations like yourselves, so from everyone at Breast Cancer Now, **THANK YOU!**

We are delighted to tell you that we will be able to put your money towards research into treatments for breast cancer. We are currently working towards our mission, that by 2050 everyone with breast cancer will live and live well. To be able to achieve this we have 5 strategic objectives, and one is focusing on developing smarter kinder treatments for those with breast cancer. Therefore your donation will be put towards the work with most need within the strategic objective. Please find the attached document that will give you further insight on what your donation may go towards.

If you have any queries, or if you would like additional information about our work, please do not hesitate to get in touch. Once again, on behalf of everyone at Breast Cancer Now, and the people affected by breast cancer we support, thank you so much again for your wonderful generosity.

Yours sincerely

Rebecca Scanlan
