Dear Mr Beardmore & Mr Gush,

I write with sincere thanks to the Trustees of Penguins Against Cancer for your incredibly generous grant of £5,000 towards Greenwich & Bexley Community Hospice. I would also like to extend our heartfelt thanks to PAC members George Tsolakides and Geraint Thomason, who proposed and supported this donation.

We were deeply touched to learn about the inspiration behind the grant and the kind words shared about the care provided by our IPU staff. It means a great deal to know that the compassion and dedication of our team has inspired such wonderful support.

Also, congratulations on the tremendous achievement of the Penguin Peloton riders, whose fundraising efforts made this donation possible. Cycling more than 570km with nearly 4500m of ascent over four days is an extraordinary accomplishment, and we are so grateful to everyone involved for their commitment, determination, and generosity.

Your support will help people living with terminal cancer across Greenwich and Bexley receive expert specialist palliative care, comfort, and dignity at one of the most difficult times in their lives. Whether caring for patients in our IPU, at home, or in the community, this funding will help ensure people receive compassionate care focused on what matters most to them.

Thank you again for your kindness, generosity, and continued support of hospice care. We think Penguins Against Cancer is a truly wonderful charity, and we are incredibly grateful for your support.

With warmest thanks,

Trusts & Foundations Manager
