Wednesday 27<sup>th</sup> May 2026

Dear Penguins Against Cancer,

I am writing to you on behalf of everyone at the Pelvic Radiation Disease Association (PRDA) to thank you for the incredibly generous donation of £5,000 in support of our organisation. I am happy to confirm receipt of funds on 12<sup>th</sup> February 2026. My sincere apologies for not confirming receipt sooner.

Pelvic Radiation Disease (PRD) can affect anyone who has had radiotherapy to the pelvic region to treat their cancer. The disease can destroy a patient's quality of life due to difficulties with bladder and bowel control, sexual function, fertility, and mobility, as well as social isolation and mental health issues.

**The Pelvic Radiation Disease Association gives a voice to people living with PRD.**

The charity's key objectives are:

- Fewer people feeling alone while experiencing the debilitating symptoms of PRD.
- Better information made available to patients in advance of radiotherapy treatment.
- Better understanding among health professionals who are treating people with PRD symptoms.
- Reduced stigma associated with having long-term, embarrassing symptoms after cancer treatment.
- Wider awareness of PRD in the medical and research community and evidence of the need to conduct more research on how to prevent and treat PRD.
- Improved quality of life for people affected by PRD.

Your contribution will allow us to develop our direct patient support services, advocate for better pathways of care and, ultimately, improve quality of life for people living with PRD. We are truly grateful for your support, and we look forward to working with you again in the future.

Yours sincerely,

Cat Price  
Fundraising and Operations Manager
