

5th December 2025

Dear Penguins Against Cancer,

Thank you so much for this wonderful donation, I can confirm safe receipt. You are one of the first who have donated to this campaign to fund a professor who will carry out research to improve treatment into this dreadful disease.

Neil has been amazed by the number of people who wanted to donate like yourselves, and he has decided to partner up with Saving Faces and Peter who is high up in the BDA ideally to raise enough money to fund a dedicated Professor to transforming evidence, earlier diagnosis and outcomes for future patients with mouth cancer. In the future we are hoping to send out messages to all dentists and their patients in the UK to raise sufficient funds.

Kind regards,

Hannah
