Dear Joanna,

Acting on behalf of Penguins Against Cancer, we enclose a cheque for **£5,000**, made out to the Institute of Cancer Research as a **Fergus Scholefield Cancer Research Fund Grant**, to support your and Janet Shipley's research work, specifically your project identifying the therapeutic strategies to combat the aggressive MYOD1 (L122R) mutation in Paediatric Rhabdomyosarcomas.

As with previous Grants, under the terms of the Grant award any publication, presentation or poster produced by the recipient(s) must acknowledge any significant contribution from the Fergus Scholefield Cancer Research Fund, and include the Penguins Against Cancer Charity's (PAC) logo (details available from us via email to: penguinsagainstcancer@outlook.com). The recipient(s) must also inform the PAC Charity about all publications the Grant has contributed to.

We wish you every success in your research and look forward to hearing about your progress in due course.

Yours sincerely
