17th December 2016

Dear Prostate Cancer UK,

Please find enclosed a cheque for £2,627 as a grant to support you in your excellent work, from Penguins Against Cancer, a charity set up to raise cancer awareness and to support cancer research and treatment, as well as hospice care. This is in addition to the £2,000 grant we sent you in January 2014.

This grant has been made possible following outstanding fundraising efforts by Ben Murphy and his fellow students at Guy's Hospital, including carol singing, facial hair growing and staging a charity touch rugby tournament. In addition, South Molton Rugby Football Club, through the good offices of the magnificent Charlie Popplewell, very generously donated several bottles of fine red wine in support of the magic raffle at our recent PAC Annual Dinner.

Penguins Against Cancer continues to grow, and stages numerous sporting and social events in an effort to make altruism fun. Please visit our website at www.penguinsagainstcancer.org.uk and let us know what you think.

We wish you every success in your ongoing endeavours to combat prostate and urological cancers and look forward to hearing of further advances in treatment.

I would be grateful if you would confirm receipt of this letter and let us know how you intend the grant to be spent.

Best Wishes from all in the Penguins Community and Happy Christmas.

DARE QUAM ACCIPERE.

Dr Charlie Beardmore

Penguins' President
