

PENGUINS AGAINST CANCER

Kicking Cancer Into Touch!

Myeloma UK
Broughton House
31 Dunedin Street
Edinburgh
EH7 4JG

2nd November 2014

Dear Myeloma UK,

Further to our donation sent to you in January, I am pleased to enclose a cheque for £1,000 from Penguins Against Cancer, to be used to further research into treatments for Myeloma.

Penguins Against Cancer is a small charity set up to raise awareness of cancer and to provide support to cancer research and treatment, and hospices.

This donation has been made possible following a fundraising dinner held on 4th October 2014, the proceeds of which have been targeted towards research and treatment of myeloma and sarcoma. The dinner was preceded by a closely-fought rugby match between the Penguins and a Guy's Hospital Freshers' XV, held to mark the retirement from the rugby field of Dr Terry Gibson, after 52 seasons of senior rugby. The match was a classic, with age, experience, weight and guile pitted against youth, agility, speed and fitness. Eventually the former capability-set prevailed, with the last score being a drop goal from 35 metres out by Pat Gush, the ageing, yet still highly effective Penguin scrum-half.

We wish you every success in your ongoing endeavours to combat myeloma, and look forward to hearing from you how this donation will be spent. Please confirm receipt of this letter.

With Very Best Wishes from the Penguin community.

Yours sincerely,

Charlie Beardmore, on behalf of:

Officers, Trustees and Members of Penguins Against Cancer
