20th September 2022

Dear Mr. Beardmore and Mr. Gush,

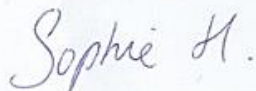

I am writing to thank you for Penguins Against Cancer's donation of £5,000, given in memory of Jean Davis and Ron Spedding. Thank you so much for this kind gift and your continued support of Pancreatic Cancer UK in Jean and Ron's memory.

Your gift will be used to support our research programmes to find innovative new treatments for pancreatic cancer. For example, the work of Dr Mathias Tesson at CRUK Beatson Institute, Glasgow. Dr Tesson is currently investigating how to target pancreatic cancer through new therapeutic strategies and drug combinations, focusing on the concept of personalised medicine and how it can be used to more effectively treat an individual's cancer. Personalised medicine is generating incredible results in treating other cancer types, so the potential to do the same for pancreatic cancer is huge.

Finally, please let me express my awe for the fabulous fundraising challenges the members of Penguins Against Cancer undertake. I very much enjoyed watching the video of your most recent charity bike ride from Guy's Hospital to the Eiffel Tower. What an incredible achievement, with so many memories made along the way.

Thank you once again.

Yours sincerely,

Sophie Hunter
Senior Trusts and Grants Manager
