Kicking Cancer Into Touch!

11th March 2021

Dear Myeloma UK,

We are writing to you enclosing a cheque for **£3,000** as a grant from Penguins Against Cancer (PAC), specifically to be used in your research work to advance a cure for this cancer. We would be grateful if these funds could be channelled to the research team under Dr Karthik Ramasamy in the Oxford branch of Myeloma UK. This grant was proposed by David Littlejohns, our Webmaster and Marketing Officer, and is in honour of his friend, Mark Meredith, who is currently undergoing excellent treatment and care from Dr Ramasamy's team in Oxford.

The grant has been made possible by some excellent fundraising efforts by our members, particularly during this challenging time of restricted opportunities.

PAC exists to raise cancer awareness, and to provide support to cancer research and treatment, as well as to hospices. It has no running or administrative costs and instead relies on the tireless voluntary efforts and generosity of its members to enable the administration of the charity to be run free-of-charge. Thus, every pound raised by PAC goes to supporting worthwhile causes. Please feel free to visit our website www.penguinsagainstcancer.org.uk and let us know what you think.

We would be most grateful if you would write back to us confirming receipt of the grant and how it will be spent. We wish you continuing success in the excellent work you are doing.

With very best wishes

Yours sincerely

A handwritten signature in blue ink, appearing to read 'Patrick Gush', with a stylized flourish at the end.
