Dear Penguins Against Cancer,

The very fact that I am writing to you today shows you already know what an amazing place Guy's and St Thomas' is. As a member of the nursing team here, every day I see the difference support like yours makes across the hospital. Thank you for choosing to support our hospitals – your contribution means we can continue providing the best possible care to our patients.

Thank you for raising £1,000.00 through your fundraising golf day and dinner. We are pleased to let you know the money you have raised has been directed to our Cancer Services Fund, which means we can support and treat more people with cancer. This fund is used to carry out research as well as find better treatments and cures.

Thanks to supporters like you who galvanise their networks to support our hospitals, we're able to fund amazing new equipment, fantastic staff training and innovative research programmes, above and beyond what the NHS can provide.

Thank you again for your support: it helps **make hospital more bearable for our patients and their families, every day.**

Emily and the Fundraising Team would like to keep in touch with you to tell you more about how the money you raised has made a difference. If you would prefer not to hear from us or have any other questions about your donation please do give the team a call on 020 7848 4701 or email info@supportgstt.org.uk.

Warm wishes,

Fee Cahill
Urology Research Nurse
Guy's and St Thomas' Hospitals
