15th August 2019

Dear Pat, Charlie and your fellow Penguins,

Thank you so much for your £5,000 donation towards our Cancer Centre and the work of Dr Irene Carey. It sounds as though you worked extremely hard to raise this, and we are delighted that you have chosen to support us.

Irene has been a consultant in palliative medicine with us since 2004. Alongside a team of specialist nurses and doctors, social workers, psychological support staff and administrative staff, Irene helps our patients and their families cope with the consequences of serious illnesses such as cancer.

Your generous gift will enable Irene to develop a 'family care box', which will provide patients' families and carers with items that matter most, and which will help make their stay with us as comfortable as possible during what can be a difficult and distressing time.

Thank you again for helping make this possible. Your support truly does make a difference.

Best wishes,

A handwritten signature in black ink that reads "Alice Clasper".

**thank
you**

August 2019

Dear Rhythm against Cancer,
I wanted to thank you personally for such a generous grant of £5,000 to aid the work of the Guys & St Thomas' palliative care team.

Our team supports patients - and their carers & families - who may be in the last few years, months, weeks or even days of life. We provide this care in hospital, care homes & at home. Your donation will specifically be used to trial a 'family care box' in hospital (including mini-fridge, cooling fan, soft lighting, camp bed, diffuser, music speakers) to enhance the care of those important to a

dying patient as well as the individual themselves. We hope that extra attention to the comfort needs of the family will support them in their caring role by providing a more peaceful and non-clinical environment.

We would be happy to provide feedback about the direct impact of this as ^{we} will plan to evaluate its use on our acute admissions ward where Dr Gibson is clinically based.

Many thanks again for your generosity and best wishes for your future charitable work.

Clare Coley.
