Dear Mr Beardmore,

Thank you for your donation

We have just received your cheque for £3,000 to The Urology Foundation which was forwarded on from our office. It sounds like you had good time fundraising and I'd also like to pass on my thanks to Mick Martin, Inky Neill and Ian Abbs. Well done too on retaining the Fergus Cup and to Fergus's brother and dad!

On behalf of the researchers, doctors and nurses working in urology to improve quality of life and outcomes for their patients, thank you. We are so grateful for your valued support of our work at this difficult time.

2020 marks 25 years since TUF was established and, thanks to supporters like you, we have been at the heart of the step change in the treatment and care for urology patients since our inception. Over the years our work has pioneered the safe introduction of minimally invasive laparoscopic and robotic surgery in the UK, from which so many patients have benefited. TUF research has also contributed to the use of botox as a treatment for overactive bladder worldwide, as well as the development of *Predict:Prostate*, an individualised tool for the management and treatment of prostate cancer, that has been adopted by the NHS.

Building on our past achievements, we are developing our programmes to meet the growing urological challenges caused by an ageing population. This year we will invest in initiatives and innovations that can improve patient outcomes and quality of life, and in the training and development of doctors and nurses working in urology, so as to transform the current urology landscape ensuring even more patients receive world class care.

Thank you for your support. Your fundraising will allow us to continue to improve the lives of urology patients throughout the UK and Ireland. Please note, while we have safely received the cheque, we are currently unable to bank it due to the Covid-19 lockdown restrictions. I do hope you are keeping well and safe during these difficult circumstances.

Kind regards,

Louise de Winter
Chief Executive
