To Penguins Against Cancer

Thank you for raising £2,000.00 towards our work on research and treatment of prostate cancer. We really appreciate your support.

On average, one man is diagnosed with prostate cancer every hour in the UK and the number of men diagnosed with the disease is rising at an alarming rate. As these numbers rise, so does our commitment to build a better future for everyone affected by prostate cancer.

Your contribution will help us find answers through funding research into tests, treatments and the causes of prostate cancer. Over the years, research in this area has been badly underfunded. We are changing this. We are investing £25m over three years in world-class research and in the last financial year we invested more than ever before in terms of the number of grants we awarded, the amount of funding we offered and the areas

There is still much more to be done so if you would like to know about other ways to support our cause or any other information, please do contact me as below.

Kind regards,
