*Dear Patrick*

Thank you very much indeed for the generous donation to our Melanoma research and I would be grateful if you could pass on my thanks to Terry Gibson as well. Please can you also pass on my sincerest thanks to all those who have given so generously via the Penguins Against Cancer. Also, my congratulations on the thumping victory against Guy's students!

Our research into melanoma is becoming ever more successful although there is still quite a way to go before we can start curing the majority of patients with this terrible disease. Support such as you are giving us is extremely helpful and greatly appreciated by all the team.

On behalf of all my colleagues on the Melanoma Unit here at the Marsden, many thanks.

*With best wishes*

*Martin*
