Dear Mr Hill,

I just wanted to write to you to say thank you so much to you and Penguins Against Cancer for raising the sum of **£800.00** for Cancer Research UK in 2014. It is such a fantastic amount of money to have raised, thank you so much for the support. Please pass on my warmest thanks to everyone who contributed to raising this amount.

As I'm sure you know, Cancer Research UK is the world's leading cancer charity and our main purpose is to save lives by preventing, controlling and curing cancer. We do this through our world class research into over 200 types of cancer, all of which is funded by wonderful supporters like you. However, we don't just do research – every year we help millions of people by providing information for patients, health professionals and the public. We push hard for positive changes in public policy and legislation, helping to keep cancer at the top of the health agenda and bring benefit to cancer patients. We tell the world what's going on through a wide range of publications – from simple leaflets on prevention and detection to our Annual Review.

I have enclosed a certificate as a small token of our appreciation and please do pass on our thanks to all those who made the dinner such a resounding success.

Please don't hesitate to get in touch if there is anything else I can do to help.

Best wishes and kind regards

Rachel Brown
