29 June 2023

Dear Simon,

I hope this letter finds you well.

We were delighted to receive the Fergus Scholefield Cancer Research Grant of £5000 from Penguins Against Cancer in support of Dr Joanna Selfe's project: *Identifying therapeutic strategies to combat the aggressive MYOD1L122R mutation in paediatric Rhabdomyosarcoma*. Our sincerest thanks to you and your fellow Trustees for your continued support.

The Institute of Cancer Research, London, is one of the world's most influential cancer research institutes, with an outstanding record of achievement dating back more than 100 years. We couldn't have come this far without our donors, such as yourselves, who have helped fund our ground-breaking work.

Thank you once again for your generous support of our mission to make the discoveries that defeat cancer. I look forward to keeping you updated on our work.

Please get in touch if you have any questions or need any further information; I would be delighted to help.

With very best wishes,

A handwritten signature in black ink that reads 'mally' in a cursive, lowercase style.
