22 November 2016

Dear Dr Beardmore

We are delighted to receive the donation of £1,000 from Penguins Against Cancer and honoured to receive this gift in memory of Tim Bates. Thank you very much indeed.

The money will be used to help fund our much-needed information and support services for people affected by lymphatic cancer, including:

✿ Patient information

Our publications cover a wide range of topics relating to lymphoma, including the different types and treatments and are accredited with the Department of Health's Information Standard. They are highly regarded by health professionals who distribute them to patients directly and are also sent out by our Information & Support team. The amount of information we send out by request each year has increased to over 50,000 items and more than 1 million pieces of information have now been downloaded from our website.

✿ National and regional patient conferences

Our conferences for patients and carers feature talks on the latest treatments from top consultants; patient experiences and question and answer sessions with an expert panel. They give people the opportunity to learn and understand more about lymphoma and meet others going through a similar experience.

✿ Education and training for health professionals

Our regular programme of courses for specialist registrars and study days for nurses offer valuable education and networking opportunities for those involved in the treatment of lymphoma patients.

Supporting people affected by lymphatic cancer

We have an established nurse forum, with current membership of nearly 300 nurses who have a special interest in lymphoma. These events help to improve patient care by increasing specialist knowledge and by sharing best practice to help encourage the best possible patient experience.

We'd be very pleased to welcome you to the Lymphoma Association to tell you more about our work, do let me know if you'd like to visit.

Please pass our very grateful thanks to David Littlejohns and to your fellow Trustees.

Warm wishes

Alice
