2 December 2020

Dear Mr Beardmore,

Thank you for your donation

On behalf of everyone at The Urology Foundation I would like to thank you for your donation of £3,000 we received recently. We are most grateful for your ongoing generosity.

2020 marks 25 years since TUF was established and, thanks to our supporters like you, we have been at the heart of the step change in the treatment and care for urology patients since our inception. Over the years our work has pioneered the safe introduction of minimally invasive laparoscopic and robotic surgery in the UK, from which so many patients have benefited. TUF research has also contributed to the use of botox as a treatment for overactive bladder worldwide, as well as the development of Predict Prostate, an individualised prognostic tool for the management and treatment of prostate cancer, that has been adopted by the NHS.

This coming year we have a number of new funding streams, including our TUF Trials programme and our Research and Innovation Award. Through continued support such as yours, TUF is able to innovate and design new awards and funds that match the needs of UK urology.

Thank you for your support. Your fundraising will allow us to continue to improve the lives of urology patients throughout the UK and Ireland.

Kind regards,

Louise de Winter
