Dear Penguins Against Cancer,

Thank you from Target Ovarian Cancer

I am writing to thank you for donating an amazing £1000 to Target Ovarian Cancer. Please extend our thanks to all of your members for their generosity and support.

“Target Ovarian Cancer has funded some of the best research from the best centres, focusing on strategies for novel treatments as well as improving palliative care.”

Professor Henry Kitchener, University of Manchester

Research spend on ovarian cancer in the UK has dropped by a third in five years. We're saying enough is enough - it's time to TAKE OVAR. Thanks to your support, we're funding life-saving research to help double survival rates. Because of you, women will get the treatment they need.

Already your gift is bringing comfort, hope and guidance to nearly 8,000 women living with ovarian cancer and their families in the UK. If you ever have any questions or if you'd like to know more on how you're helping women with ovarian cancer, please do contact me.

On behalf of everyone at Target Ovarian Cancer, thank you again for your continued support.

Yours sincerely
Susan Booth
