Dear Sir/Madam

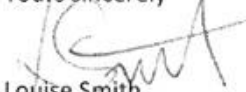

Thank you very much for the kind donation of £2,000.00. As you have requested this will benefit the Chemotherapy Day Unit at Frimley Park Hospital.

Your generosity will allow us to continue to fund a range of services and equipment which are above and beyond what the NHS can fund, and make a real difference to the lives of our patients. We have been able to provide a new unit and cutting edge technology for our Neonatal team, allowing them to treat and care for premature babies. We have also been able to provide another primary angioplasty Cath Lab within our cardiology unit, which on average has saved one precious life per day. The last hospital fundraising appeal has provided funds allowing the breast care team to have a state of the art 3D mammography machine. Our latest Appeal in 2017 is for the Stroke Unit to extend the space in the stroke unit and provide a better area for recovering patients to spend time with their families away from the main wards, receive a wider range of complementary therapies that aid recovery and provide more of the latest equipment that help to speed recovery.

We believe that every patient deserves the best possible care. That's why we are grateful for the huge kindness of people like you, which helps the hospital offer a level of care beyond that which the NHS alone can provide.

We would like to keep in touch with you every so often and let you know how your donation is helping. If you would prefer for us not to contact you please let me know.

Yours sincerely

Louise Smith
