5th July 2018

Dear Penguins Against Cancer,

I am writing to thank all of the Penguin flock for donating towards Action Against Cancer's work. We have received your generous grant of £1,000 in memory of Chris Lantos. This will go towards the purchase of a Real-Time Automated Microscope at the University of Sussex. There are more details about this in the enclosed paper. We felt that this would best meet the note in your kind letter that the grant be directed towards finding cures and life prolonging treatments.

Action Against Cancer funds pioneering research at the University of Sussex and at Imperial College London. All of this work is aimed at finding ways to diagnose cancer earlier and treat it more effectively, to save lives. Many of the scientists we fund are working on unique experiments with enormous potential to help existing and future cancer patients. We do not receive any government funding, and we are entirely reliant on the support of wonderful donors such as Penguins Against Cancer to enable this ground breaking research to happen.

Thank you very much again for your generosity, we appreciate this enormously.

Yours sincerely,

A handwritten signature in black ink that reads "C. Cranmer".

Ms Charley Cranmer
Director of Fundraising and Communications
